<b>Organization:</b>	<b>Allegiance Communications</b>
<b>Project Name:</b>	<b>Allegiance Fiber to the Home</b>
<b>Project Type:</b>	<b>Infrastructure</b>
<b>State(s):</b>	<b>Arkansas, Kansas, Oklahoma, Texas</b>
<b>Federal Award:</b>	<b>\$28,619,485</b>

## ABOUT THE PROJECT

The Allegiance Fiber to the Home project plans to expand broadband access to underserved areas of Arkansas, Kansas, Oklahoma and Texas by building and deploying more than 680 miles of new fiber-optic network in 35 communities. The project will deploy fiber-to-the-premises technology offering broadband speeds up to 20 Mbps downstream and 4 Mbps upstream to an estimated 12,700 households and 230 businesses in the four-state region. The project intends to directly connect 72 community anchor institutions, including 16 city halls, 12 police stations, 16 fire stations, 11 libraries, 16 schools, and one hospital.

The Allegiance Fiber to the Home project also proposes to:

- Upgrade communications for public safety entities to improve storm warning systems and first responder efforts.
- Offer local medical clinics and rescue squads the potential to connect to specialists at major urban hospitals and share health records with improved data transfer speeds.
- Offer the first wireline broadband service faster than dial-up to 23 of the 35 impacted communities.

## ORGANIZATION'S HISTORY

Allegiance Communications, LLC was formed in 2003 and has acquired, built, and managed cable systems providing television, high-speed data, and other broadband services to markets in Arkansas, Kansas, Missouri, Oklahoma, and Texas. The company currently operates 1,673 miles of fiber network, and intends to partner with woman-owned, tribal-owned, and other small businesses for this project.

## PROJECT PARTNERS

- ACRS 2000 Corp.
- All American Cable Services
- Big Earth Industries, LLC
- CommScope
- Enablence
